

FAQ in a Nutshell – WLN Dubai Spring 2026

Quick answers to key questions about AI in law, based on the "Be Bold, Be DubAI" methodology.

Vision

What does "Be Bold, Be DubAI" mean?

It is a call to action for the bold implementation of AI in law firms. Instead of fearing technology, use it strategically. Dubai is a symbol of courage, and AI is your new business tool.

Will AI replace lawyers?

No. AI only takes over the tedious, repetitive work (*drudgery*). This gives you time for strategy, client relationships, and "strategic empathy."

How to Write Prompts?

What is a prompt in the legal world?

It is a **briefing**. Do not ask questions – issue commands. Treat AI like a capable intern: you must give it instructions, boundaries, and the context of the case to get a useful result.

What is the P-C-T-S-F model?

These are the 5 pillars of an effective instruction for AI:

1. **P (Persona)**: Who should the AI be? (e.g., GDPR Expert).
2. **C (Context)**: What are the facts? (e.g., judgment text).
3. **T (Task)**: What should it do? (e.g., list risks).
4. **S (Style)**: In what tone? (e.g., formal).
5. **F (Format)**: How to format it? (e.g., table).

How to avoid AI errors (hallucinations)?

Use **Grounding**. Upload a file (e.g., a contract, a judgment) and add the instruction: "*Answer only based on the attached document.*" This eliminates fabricated facts.

Tools

Which tool should I use?

- **Microsoft Copilot**: Support for daily work within Microsoft 365.
- **Google Gemini**: Support for daily work within Google Workspace and analysis of

hundreds of document pages thanks to its large context window.

- **Claude:** For writing excellent texts and articles.
- **Perplexity:** For checking current legal information on the web.

Security

Is my data safe?

Yes, if you use business versions (Enterprise). Your data is encrypted and is **not used** to train artificial intelligence. It remains your property.

Materials

Where can I find the instructions?

You can download all frameworks and recordings at: bedubai.aiforeveryone.com.pl.
